

BÁRBARA AGRA

Product & UX Designer | Visual Design, Digital Products & Technology
Rio de Janeiro, Brazil | (21) 96461-0912 | babs.agra@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Designer with over 10 years of experience in digital experiences, visual communication, and web products, combining design, technology, and development expertise. Experienced in creating and implementing interfaces, websites, and digital solutions, from information architecture and content hierarchy to prototyping and final delivery.

Currently working at Globo, implementing broadcast graphics using Viz, at the intersection of design and technology. Holds a Master's Degree in New Media and Web Practices and has additional training in Web Development, with knowledge of Figma, HTML, CSS, JavaScript, and digital environments.

Multidisciplinary professional with experience across international projects, SaaS, media, and architecture, collaborating with stakeholders and translating business needs into visual solutions and digital experiences.

EXPERIENCE

Broadcast Graphics Designer I | Globo | May 2026 – Present

- Implementation of graphic elements and broadcast graphics for television using the Viz platform
- Participation in production workflows and implementation of graphics for broadcast environments
- Adaptation and application of visual solutions according to graphic standards and editorial requirements
- Work in a fast-paced production environment, with strong attention to visual accuracy, consistency, and broadcast deadlines

UX/UI Designer & Web Developer (Client Projects) | World Teams | Nov 2025 – Aug 2026

- Led digital projects for international clients, from requirements definition and information architecture to interface design and implementation
- Structured user journeys, content hierarchy, and navigation for corporate websites
- Created wireframes and responsive interfaces focused on clarity, usability, and visual consistency

- Developed and implemented solutions, working directly across design and technical execution
- Presented solutions and iterated based on stakeholder feedback

Graphic Designer & Marketing Analyst | XQUIC | Feb 2025 – Jul 2025

- Worked on an international SaaS product in the hospitality sector
- Contributed to the redesign of the company's digital experience and website, structuring content hierarchy, messaging, and interfaces
- Identified inconsistencies in the brand experience and developed solutions to improve visual standardization
- Created and prototyped interfaces and digital assets in collaboration with stakeholders
- Translated business needs into clearer and more consistent visual solutions

Marketing Coordinator | Canal Woohoo | Jan 2012 – Jan 2019

- Managed the brand's digital experience and communication across multiple platforms, reaching an audience of more than 2 million users
- Developed and evolved content strategies based on audience behavior and engagement
